📍 Noida

### EDUCATION

Bachelor of Technology

GL Bajaj Group Of Institutions,  
Mathura  
2017 - 2021

### SKILLS

- **Languages:** Kotlin, Java
- **Development Tools:** Android Studio
- **Frameworks & Libraries:** Android Jetpack, Retrofit, Room, Dagger Hilt, Coroutines
- **Version Control:** Git
- **UI/UX Design:** Material Design principles, responsive layouts

### LANGUAGES

- Hindi
- English

### OTHER PROJECTS

#### Wallpaper App

- Created a wallpaper app using modern Android technologies like MVVM, Coroutines, Retrofit, Dagger Hilt, and Room Database.
- Made sure the app runs smoothly and handles data efficiently.

### ABOUT ME

I'm a passionate Android developer with over 3 years of experience in creating mobile applications that enhance the user experience. My expertise lies in developing feature-rich Android apps using Kotlin and Java, with a strong focus on best practices and user-centric design.

### WORK EXPERIENCE

#### ● Unnati Agri (Noida) Feb 2023- Present

Android App Developer

##### Ora Finance App

- Led end-to-end development of a robust loan application using MVVM architecture, integrating secure payment gateway, complex APIs, E-Mandate, and KYC processes.
- Designed an intuitive UI, optimized app performance, and conducted unit/integration testing for high code quality.
- Collaborated with cross-functional teams, conducted code reviews, and mentored junior developers.
- Managed project timelines with Agile methodologies and ensured compliance with industry standards and regulatory requirements.

##### Unnati Shop App

- Upgraded Unnati e-commerce app with improved UI and modern technology.
- Replaced async calls with Retrofit API for faster, reliable performance.
- Transitioned from SQLite to RoomDB for enhanced data management and user experience.
- Improved overall app speed, functionality, and user satisfaction through thorough testing and optimization.

**APP LINK:** <https://play.google.com/store/apps/details?id=com.aspl.unnati>

##### OraFinance Field App

- Led development of the OraFinance Field App for customer onboarding in loan services.
- Utilized MVVM architecture for a clean and maintainable codebase.
- Implemented Coroutines for efficient background processing.
- Integrated REST APIs using Retrofit and managed dependencies with Dagger Hilt.
- Enhanced data management with Room Database.
- Streamlined the onboarding process for field agents, improving efficiency and customer interactions.

#### ● WIPRO Technologies (Gurugram) Aug 2021 - Feb 2023

Android App Developer

- Contributed to developing and maintaining the Blackstone PCAP Android app for investment and banking services, ensuring secure access and real-time market data provision.
- Integrated diverse investment tools for user convenience and prioritized app security and data protection.
- Maintained and updated the app for optimal performance and reliability, focusing on user experience and security.

#### ● LogicLadder Technologies (Gurugram) March 2021 - July 2021

Android App Developer

- Contributed to developing an Android app for a sustainability management technology company.
- Built user interfaces, integrated APIs, and implemented a secure payment gateway.
- Worked under the guidance of senior developers to enhance app functionality.
