

ATHARV MISHRA

Mobile App Developer (Android & Flutter) | Noida, India | +91-8755328239 | atharvmishra77@gmail.com

Portfolio: <https://atharv-portfolio-ashy.vercel.app>

PROFESSIONAL SUMMARY

Experienced **Mobile Application Developer** with 4+ years of expertise in **Android Native** and **Flutter** development. Strong background in **POS systems**, **FinTech**, **IoT integrations**, scalable enterprise applications, and modern **AI-powered systems**. Experienced in **Kotlin**, **Java**, **Flutter**, **MVVM**, **Socket Programming**, **Firebase** ecosystem, and emerging **AI tooling** including **AI agents**, **MCP servers**, and **memory graph architectures**.

TECHNICAL SKILLS

Languages	Kotlin, Java, Dart
Android	Jetpack, Retrofit, Room, Coroutines, Hilt, MVVM
Flutter	Bloc, Riverpod, Provider, Animations
Backend	Firebase, MQTT, Node.js, Socket Programming
Architecture	Clean Architecture, Repository Pattern, UseCases
AI Systems	AI Agents, MCP Servers, Memory Graphs, OpenAI APIs, LLM Integrations, RAG Systems, NLP
Tools	Git, Jenkins, Android Studio, VS Code

PROFESSIONAL EXPERIENCE

QueueBuster | Mobile App Developer | Oct 2024 - Present

- **Self Checkout Android App:** Led development of an Android-based self-checkout application for restaurant chains, focusing on **kiosk UI/UX**, **payment integration**, and **scalable architecture**.
- **QueueBuster Billing Windows App:** Responsible for overall **project architecture** and implementation of the **Fine Dine module**; developed local communication using **Socket programming** for real-time billing and synchronization.
- **Ticket Admission Android APK:** Developed **end-to-end Android APK** integrating with **PLC systems**, **IoT devices**, and **MQTT servers** for **automated ticket admission**.

Unnati AgriTech | Android App Developer | Feb 2023 - Oct 2024

- **Ora Finance Loan App:** Designed **scalable MVVM architecture**, integrated **Razorpay E-Mandate**, and implemented **KYC verification systems**.
- **U-Store App:** Migrated **legacy Java modules** to **Kotlin** for an application with **100K+ downloads**; improved **API performance** and modernized storage using **RoomDB**.

Wipro | SDET | Dec 2021 - Feb 2023

- **Blackstone Project:** Developed and maintained comprehensive **automated Selenium test suites** for enterprise-level financial platforms. Integrated **test automation** into **CI/CD pipelines** to ensure high-velocity deployment cycles and conducted thorough **functional**, **regression**, **performance**, and **load testing** to maintain system stability for high-stakes financial environments.

PROJECTS

- **Hello NITR (Flutter):** Built a **Firestore-powered** communication platform using **Firestore**, **Firestore Functions**, **Hosting**, and **Authentication**.
- **NoNames Social Media:** Integrated **AWS facial recognition**, **VoIP calling**, **encrypted multimedia chat**, and **delivery tracking systems**.
- **AI Knowledge Base System:** Working on **AI-powered knowledge systems** integrating **PDFs**, **Confluence**, and **web sources** using modern **LLM architectures**.
- **QuickQueue (Restaurant Ordering & POS System):** Building a **QR-based self-ordering platform** for restaurants with integrated **POS**, **analytics**, **reporting**, and **payment workflows**.
- **VentitOut (Anonymous Workplace Platform):** An **open forum** for sharing **unfiltered workplace experiences**, designed as a **privacy-focused** alternative to legacy platforms by eliminating forced contributions and data harvesting.
